

Kona Hawaiian Village

A Kona Coast time-share project with 14 multiple unit buildings, E. M. Rivera & Sons completed the mass grading, rock walls, asphalt roads and all underground utilities including electrical, telephone, cable and homeowner communication system. Water, sewage and drainage system work was also done.

E. M. Rivera & Sons specializes in mitigating the impact on ancient archeological sites, as were found on this parcel.

Client: Kona Hawaiian Village Ownership, LLC

Engineer: Ali'i Architects. Inc.
